We would highly recommend Belmontez Construction for any of your small to large project needs. Belmontez was contracted to complete an exterior restoration project, interior restoration project, irrigation/landscaping project and solar panel construction/installation project for our Wellness Center. We were under tight deadlines, to which Belmontez easily accepted the challenge. Not only did they meet the deadlines with ease, they did so with an end product that we can be proud of.

We are completely satisfied with the work performance of Belmontez and their construction team. They provided a full team of professionals who showed commitment to adhering to strict deadlines, completing the visions of the project as outlined, offering invaluable insight based on their expertise and providing high quality end results.

In this day and age, it is easy to scroll through the Internet and view an extensive list of contractors to select from to complete any need your business may have. What is not shown in that list when initially viewing the Belmontez name, is the qualities of dedication and professionalism that Belmontez brings to any task. They arrive with a positive attitude, easily dispelling any frustrations or stress that a business owner is typically experiencing when requiring a contractor. Their competent, professional, positive demeanor sets them apart from the list of so many others.

With enthusiasm, we would highly recommend the services of Belmontez Construction. If you have any questions, please feel free to contact us at any time.

Sincerely,

Terri Chace, Co-Owner
